

God's "Muscles Power" at Work in You!

BCFC April 2017 Newsletter

There is enough divine muscular
supernatural power working in me to
remedy anything out of God's desire
for my life!

I accept the fact,
that God's muscle power
is at work in me right now
and I command things contrary
to start to change
in Jesus Name, Amen

Baltimore Christian Faith Center www.BCFC.org www.BaltimoreChristianFaithCenter.com

When Goliath took on David, he never realized looking at David stature what was coming his way! But David knew the power at work within him. Similarly, that idiot called devil (goliath) will try to take on us thinking he can overtake us. My Bible tells me "Greater is He that is in me, than he that is in the world. 1 John 4:4"

Sometimes situations and the noise made by circumstances might cause us to lose focus on the fact that we have the sheer muscle power of our God to work within and with us which will enable us to take on and overcome any of life's challenges. No matter how difficult the situation, the problem may be, we can always count on the resilient power of our God. How, you may ask? By confessing it

even if you don't believe it! Keep confessing until it becomes part of you!

Here is a simple suggestion of how to do it: "I boldly confess that all the muscle power my God possesses, and all His might are able to energize me!" Having this power at my disposal and working within me, I am able to confront and overcome every obstacle and every difficulty, every demonic activity trying to make my life miserable and derail me from God's ultimate blessings.

I further declare that I pray with authority and lay hands on the sick including myself and recovery begins immediately! I speak the word of faith to every situation I face in life and I will succeed. I will confront every evil spirit that may cross my path and overcome it, because "Greater is He that lives within me, than anyone else out there!"

No need for us to be fearful. I refuse to be intimidated by any outside source! There is enough divine muscular supernatural power working in me to remedy anything out of God's desire for my life! I accept the fact, that God's muscle power is at work in me right now and I command things contrary to start to change in Jesus Name, Amen and Amen!

In Him,
Pr. Paul Santos
