

Where is your faith?

Pastor's Desk – September 2, 2018

Jesus asked his disciples one time when they were in their boat and suddenly a storm hit the boat, "Where is your faith?!" They were afraid and worried about the strong wind and the raging sea, so they woke up Jesus from His nice nap to do something, and to save them from the worst.

The storms of life, sometimes hit us in many ways and we, like the disciples get scared, worried and anxious. But today, if you are in that same kind of attack, Jesus has a question for you; "Where is your faith?" Luke 8:25

Jesus will help and save us always, but we need to exercise our faith in Him. He gives us authority over all the power of the enemy! Don't be worried or afraid about the circumstances in your life, but instead take authority in faith and He will honor that!

For His glory and honor,
Co-pastor, Marcia Santos
