

Cancer in the Female Organs

Sister Pamela from Indiana phoned in a few weeks ago, she was asking for prayer because she was diagnosed with cancer in her female organs. Her Doctor told her she did not have a long time to live. Out of despair, she wanted to know if miracles really happen, and if God could do a miracle for her. During the phone conversation, the Lord revealed that she had un-forgiveness against her ex-husband and sons. She had to let the pain and bitterness go for the Lord to heal her. At first she hesitated but then decided in her heart to forgive them and let it go. The Pastor did a simple prayer renouncing un-forgiveness towards the people that hurt her and claiming her healing through Christ Jesus. As soon as he was done praying she started to feel better. She had a scheduled appointment three days later and through the exams all her tests came back negative and there were no traces of cancer in her body. Hallelujah! He is a miracle working God!!!

Cancer on the Left Breast

Sister Rita from Delaware was diagnosed with cancer on the left breast and it was progressively getting worse. The cancer spread so quickly that it went down into the bone. She was in constant pain and there was nothing she could take to make the pain go away. In desperate need of a miracle she called Baltimore Christian Faith Center. While she was explaining her illness, the Lord revealed that she had un-forgiveness against her husband. She went on to say that her husband was no longer living. The Pastor insisted that if she wanted

her miracle, forgiveness still had to be administered whether her husband was dead or alive. So, during the prayer she declared in a loud voice: "Lord I forgive my husband for all the pain he has caused me!" Then Pastor prayed for her. At the end of the prayer the pain disappeared immediately. She couldn't believe the transformation she was going through and decided to see her Doctor five days later. She told the Doctor that she has not had pain in her left breast and the Doctor did an x-ray; to his surprise he could not find any cancer in her breast nor in any other part of her body! What a mighty God we serve!!!

Breast

Sister Sarah from Long Island phoned Baltimore Christian Faith Center and spoke with Pastor. She said that she had felt a lump on her right breast and that lump became painful. Shortly after that, the skin started to flake, and the area became an infected open sore. She immediately went to the Doctor and got tested and when the results came back she found out she had cancer on that breast. In despair and not knowing what else to do she called for prayer. The Lord revealed to Pastor that she needed to forgive someone. He asked her if she had any in-laws or a close friend that had hurt her. She said yes many years ago a childhood friend had hurt her so bad that it left a deep scar in her heart, and she also had some resentment towards her in-laws. Pastor said, "It's time to let it go." They did a prayer together over the phone and she openly forgave her childhood friend and in-laws. After that prayer was done, Pastor prayed for her. When he was done praying she said all the pain was gone! She called back later that day stating that after she hung up she went to the bathroom to check on the lump, the open sore was completely healed, the flaky skin was gone, the redness was gone, and the lump had shrunk tremendously. She decided to see her Doctor a few days later and an x-ray was done, to everyone's surprise the cancer completely disappeared! Praise God!!!

Healing of Menstrual Cramps

Sister M. Rose from, Pennsylvania. was visiting Baltimore Christian Faith Center on a Sunday night. A word of knowledge came to Pastor Paul that anyone who had pain anywhere on their body would be healed, so he asked the congregation to put their hands on whatever area in their body that hurt, and asked the congregation to repeat a prayer of healing. She put her hand on her stomach. Sister Rose had suffered from bad menstrual cramps since she was a young teenager; she had to take strong pain killers to help cope during her menstrual cycle. Since the prayer of healing Sister Rose has not taken a single pain killer and the terrible cramps are gone! Praise be to God for his healing power!!!
