

**Inflammatory Bowel Disease HEALED!**  
**Abdominal Hernia SHRUNK, Pain In the Left**  
**Hand GONE! Breathing Issues CEASED!**  
**Lower Intestine Cancer GONE! February 2017**

**Inflammatory Bowel  
Disease**

Sister Joanna from Maryland writes, "In December of 2016, I suffered from severe bloody diarrhea. I could hardly eat or drink anything. As anything I took through my mouth made my condition worse. I lost 15 lbs. in 10 days. My colonoscopy result showed that my whole colon was inflamed and the G.I Doctor suspected that I had Inflammatory Bowel Disease (IBD) for which there is no complete cure and it is a condition to live with. My husband and I decided to fight our fears and anxieties about my health and future with God's Word. While we were cleaning our house and speaking aloud healing scriptures from the Bible for my healing, the Lord spoke to me and strengthened my faith. Sister Marcia at BCFC prayed for my healing and Guest Speaker Lisa Hicks prayed as well and said that the devil attacked my stomach and that God will heal me. God's word and the prayers of these saints brought forth healing into my body and I started experiencing God's healing power in my body after suffering for over a month. My next colonoscopy results showed that there was no sign of any inflammation in my colon and that my colon looks just normal. I GIVE ALL GLORY TO OUR LORD JESUS CHRIST!!"

**Abdominal Hernia**

Sister Maureen from Timonium Maryland reports that her daughter was scheduled for abdominal hernia surgery on February 7 and was told she would need to have a mesh insert placed within for support because of the nature and location of the hernia. She was also told by the surgeon that it would be next to impossible to recover from this surgery without narcotic pain medication. For personal reasons she chose to rely on OTC pain meds much to the surgeon's dismay. Prior to the Healing School that same day, Sister Marcia and her prayer warriors prayed over this whole matter. And during healing school Sister Maureen stood in the gap for her daughter while Pastors Paul and Marcia laid hands on her on behalf of the daughter and covered her in prayer like a net. After the procedure, the doctor reported that the hernia was not as big as he anticipated and no mesh insert was necessary. He sent the daughter home with some narcotic for pain relief but she never had to take them and was able to go through recovery with only OTC relief and a low pain level. Truly this is the result of prayer intervention and all the glory belongs to our God!

## **Pain in the Left Hand**

Brother Crissman from Baltimore Maryland said that he had suffered from pain on his left hand for several years. Sunday morning on the 12<sup>th</sup> of February Pastor Paul asked people to stand who was feeling any pain on the body. Brother Crissman stood up and believed in faith for his healing. While Pastor Paul was praying for him, the pain started leaving bit by bit, but at the end of the prayer the pain on the left hand had completely gone! Brother Crissman till this day has not had any pain, stiffness, or aches on his left hand! PRAISE GOD!!

## **Breathing Issues**

Sister Linda of Baltimore Maryland stood up at BCFC on February 21<sup>st</sup> to testify of the Lords goodness in her life. She states that she had a breathing issue that lasted for 6 days. It became so bad that she had to go on regular oxygen. On Tuesday February the 14<sup>th</sup> Sister Marcia and two other Sisters from BCFC were praying for her and she had no clue! But that same Tuesday morning when she woke up, she realized that she didn't need the oxygen tank because she was breathing perfectly fine without it! Since the 14<sup>th</sup> Sister Linda testifies that she has not had any problem breathing and she praises the NAME OF JESUS!

## **Lower Intestine**

Sister Harriet from Severn Maryland was diagnosed with Lower Intestine Cancer. The Doctors reported that it was in advanced stage. They suggested experimenting with chemo therapy, but offered no solid hope. Anguished she called Baltimore Christian Faith Center for prayer. After confessions were made a prayer of agreement was offered that not only would the Lord kill the cancer but also restore everything that had been damage on both small and large intestine. We said amen. She returned to see the Physician a few days later to discuss the treatment, the Physician noticed that her countenance was different and ask how she was doing to which she answered "I'm fine!" There were a second set of tests done before beginning the first stage of chemo therapy but they could not find any cancerous cell in her body!! Now she praised the name of the Lord God for her great deliverance!

## **ALL services are MIRACLE services!**

Baltimore Christian Faith Center  
10240 Liberty Road  
Randallstown, MD 21133
