

Stomach Pain, Diabetes, Legs Healed, Arm Grows Out, Carpal Tunnel

April, 2016

Stomach Pain

Brother Joshua works in a hospital and he testifies that last month he met a patient with stomach pain so bad that she could not move at all and her family was very worried about the situation. The doctors were trying to figure out what was causing the patient's extreme pain and they sent her for a CAT scan. After she returned, the mother of the patient asked Joshua to pray for her daughter because she had heard him preaching the good news of Jesus. Joshua went with her to her daughter's room. When he reached out his hands to do the prayer, the mother was surprised, but then she jumped in for prayer as well as the whole family! By the power of the Name of Jesus and the Holy Spirit, prayers for healing were offered, along with repentance for sins. As they prayed, three angels appeared dressed in pure white armor, each with a huge sword and giant shield! About four hours later he saw the patient with her family; she was happy, walking around feeling a lot better. She testified that she had felt a burning sensation in her stomach and the pain was gone! The Lord healed her! All glory and praise to our Lord Jesus Christ! Hallelujah!

2 People's Legs Healed at the Same Time!

Sister Jackie came to BCFC with Sister Melissa to hear Pastor Scrivner teach about healing. She had been suffering with pain in her legs from clogged veins. She was sitting across the aisle from a man in a wheelchair. When Pastor Santos was praying over the man in the wheelchair, that healing also washed over Sister Jackie's legs and the pain left! Not only could the man stand and walk, but Sister Jackie's legs were also healed! It was a double healing for two people; with one prayer – 2 healings – 2 miracles – 2 blessings! Glory to God!

Diabetes

Sister Porter had been suffering from diabetes for 21 years. She was on medication and she came to attend one of our services. A Word of Knowledge came from the Lord that the Lord was going to heal someone suffering from diabetes for the longest time. She stood up, received prayer and was instantly healed. In a moment of weakness, she decided to take the diabetes medicine just one more time until she saw the doctor. A few hours later, she was taken to the hospital because her sugar level was too low. She repented, received forgiveness & she continues to be healed since Oct. 15 of last year! Hallelujah!

Leg Healed

Sister Bessie from Baltimore has been working on a project in her home and her living room was in disarray. On Saturday, as she tried to step over a large vacuum to get to her trash bag, her left leg got caught and she went down hard on the floor. Immediately, she grabbed her leg – she was in pain and her leg began to swell. She spoke over her leg saying, “I do not accept the pain, I do not accept the swelling, and I do not accept the tightness,” and she quoted Psalm 30:2 (NKJV), “O Lord my God, I cried out to You, and You healed me.” She commanded her left leg to line up with the Word of God in Jesus Name. She then went back to working on her home project, ignoring what her leg was feeling and ignoring the swelling. She is so very thankful to not only be in a church (BCFC) that teaches us to remind God of His Word, believe in healings and supernatural miracles, and see them manifested as well! By Sunday morning, her leg had no pain and no swelling! Praise the Lord!

Arm Grows Out

Sister Myra of Baltimore was born with her right arm ½ inch shorter than the left arm. She had been listening to Psalm 32 and had been declaring her healing daily. She received prayer at BCFC and she felt her arm grow. She went to see her Therapist and she asked for her arm to be measured – it had grown ½ inch and it is even with the left arm. Praise the Lord! God is good!

God still heals today!

Carpal Tunnel

Sister Jenny of Owings Mills suffered from pain in her wrists and arms on both the right and left side for over four years. It seemed to get worse every year. At one point it was so bad she couldn't drive or even hold a cup without pain. People were telling her that she had carpal tunnel syndrome, but she refused to accept that report and she refused to have surgery. She received prayer from a sister at BCFC in May, 2015. She has felt no more pain since then and it has been almost one year. Now she is learning to play the guitar and she feels no pain at all! Praise God! Jesus' Name is Powerful!

ALL services are MIRACLE services!
