### Supernatural Healing

Brother Cecil went for right hip replacement surgery on Monday, April 18. The Lord told him that he would have supernatural healing and confirmed it through a sister in church. After the procedure happened and he was placed in a recovery room, the Lord sent him amazing Christian nurses! He had hip replacement surgery on the left side several years prior and his experience was nothing like this one! The doctors and nurses were not as warm and kind as now, and the feeling in the room was completely different! Brother Cecil was able to talk to a few nurses about Jesus and had wonderful conversations! The presence of heaven was right there in the hospital room! He was able to come home

Tuesday and went for physical therapy a few times and was able to come to the church service on the 24, without a cane! On Monday he walked out to his shop to check things out and felt great! The previous surgery took 3 weeks to recover, and brother Cecil is praising the Lord for coming through in a mighty way for him! He lived with so much pain before the surgery took place, and now he can walk without the dreadful pain and the supernatural healing that has taken place is just incredible! God's ways are not always our ways, but when we surrender and trust Him completely, He will do many great and mighty things! Halleluiah!!!!

## The Power of God

Sister Debbie was constantly feeling exhausted for several weeks. She attended a Wednesday evening service and when the call came to stand for prayer she walked forward to be anointed and prayed for. As she went back to her seat she felt the surreal presence of God all over her! She said for the rest of the service, she felt supernatural strength flowing over and in her and after the service she felt more awake and energized than she has for a long time! Sister Debbie is praising and exalting the name of the Lord for touching her body and physically healing whatever was wrong inside of her!

Brother Garland had terrible back pain one night, and the next morning it was no better, so he went downstairs to the living room, turned on worship music and just quietly worshipped and praised the Lord as he sat in pain. To brother Garlands amazement, The Lord appeared in the doorway and walked over to him, touched his back and from that moment, his back was completely pain FREE!!! When we turn to Jesus in the midst of pain or whatever else we are going through, there is no limit to what He will do! Thank you, Jesus that You are the author and finisher of our faith no matter what! You never leave us for forsake us!!!

## Life Restored

Brother Chet has a son who was in the hospital and had lost consciousness. The doctors told him there was not much they would be able to do and gave no hope for a full recovery.

Brother Chet attended a Saturday morning men's meeting at BCFC and as he walked in, he asked his fellow brothers if they would join him in prayer for a miracle concerning his son. The men joined together in a prayer of faith and commanded the spirit of death to leave that body and for LIFE to come back, in the Mighty and Matchless name of Jesus!!

As brother Chet was leaving the meeting, his wife called to say she walked into the hospital room, grabbed their son by his shoulders and said, "wake up"! He opened his eyes immediately and was completely fine! When she told him what time he opened his eyes it was right after the men had prayed!! Hallelujah! All glory and honor belongs to King Jesus who is the Ultimate Healer and Life Giver!!!
