Eyes Healed

When Sister June of Ellicott City was looking at her computer screen, she became aware of a distortion in her eyes, which consisted of a zigzag arc of flashing lights. She immediately bound and cast out the spirit of blindness and infirmity--and it got worse, complete with a feeling of disorientation. As she declared she had the mind and eyes of Christ, God reminded her that just the night before she had criticized a family member. She knew God loved this person more than she did and it wasn't up to her to "fix" that person. She was then able to repent, ask for forgiveness and close the door she had opened that allowed satan to torment her. Her eyesight immediately cleared up. God gets all the praise and glory for being merciful, forgiving and healing! Hallelujah!!

Problem Solved

Sister Rose from Randallstown was having difficulties at work with her manager. Every time she requested to have off to come to church, her manager said "No, I want you to work." Sister Rose went to the Lord in desperation because her job was keeping her from worshipping in the house of God! The Lord told her that He wants her to show the love of Jesus to her manager. So after 2 weeks of faithfully showing love even when she felt frustrated, Sister Rose walked in one day and her manager told her, whatever her request was, it would be granted!! Sister Rose said "I would like to have off on Sundays" and her manager said, "Ok, you may go to church!" Praise God for always coming through for His children when we are faithful in obedience!!

Dizziness Gone

Sister Lakisha from Halethorpe was having 7-10 dizzy spells a day, and when she went to the doctor they couldn't find the cause of it.

So she came to BCFC and stood to receive prayer on a few different occasions. The dizzy spells got less and less. Sister Lakisha kept proclaiming healing and restoration in the name of Jesus and now she testifies that the dizzy spells are GONE! Praise God for His healing power!!

God's Faithfulness

Sister Eleonore from Windsor Mill testifies on the goodness of God. She is the only believer in her family and in the past, when she wanted to share Jesus with anyone, they rejected hearing about Him. So she just prayed and put her family into the capable hands of God. One afternoon she got a call from her brother, he was on his way to the hospital and was having severe pain in his stomach. Sister Eleonore told him that Jesus could heal him if he would only believe! She told him to put his hand on his stomach and she took authority in the name of Jesus, renouncing the disease that was attaching him. After the prayer her brother felt better, he went to the hospital to check out what was going on. A little while later he called her back and said after a small procedure he was on his way home! Then he said, "My sister, I have to give it to you, you serve a true God!"

Sister Eleonore is thanking God for this opportunity to be a witness to her brother, just as she was praying for!!

Supernatural Healing

Sister Marlene from Owings mills had a dentist appointment, of which she was not excited about, because 3 of her 4 wisdom teeth needed to be extracted! She decided to have it all done in one visit so she wouldn't have to think about it any longer. The process went extremely well. The dentist numbed her up perfectly and she didn't feel a thing until the last one because it had to be cut in half and it was attached to her jaw bone! All things considered, it was a good visit, and when she was ready to leave the dentist, she was told because of being pregnant the only pain killer they would recommend was Tylenol. So Sister Marlene went home and did everything the dentist told her to do, using ice to minimize the swelling and get plenty of rest. The Novocain started to wear off and she started to think of maybe taking Tylenol, but she forgot the dosage her dentist had recommended. So she said, "Lord, I forget how much I am supposed to take so I trust YOU to keep the pain away." And praise be to our awesome Father, He was the source for Sister Marlene's pain-free recovery. Anyone who has had a tooth pulled knows without God, it is impossible to have a pain-free recovery from having 3 teeth pulled, including some bone being exposed, her gums to completely heal, and, NO swelling without medication!! Glory to God for caring about every little (and big) thing His children go through and will help every step of the way if we ask and trust Him!!
