

June 2019

Happenings at BCFC

SERVICES

**Sunday Morning Worship -
10 AM**

Sunday Evening - 7 PM

**1st Sunday
additional service - 2 PM**

**Tuesday Morning -
10:30 AM "How to keep
your healing class"**

Wednesday Evening - 7 PM

**ALL Services
are MIRACLE
Services**

See our complete
list of upcoming
guest speakers
and musicians at
www.BCFC.org on
our "Special
Events" page.

Miracle Healing

Sister BJ, has a son who was diagnosed with a serious brain tumor. In desperation, she brought her son to BCFC for a Sunday morning healing service. When the call to stand for prayer came, she and her son stood to be anointed and prayed for. When the day arrived for the surgery to take place, the son did go in for the procedure. When the two surgeons did the final prep tests for the surgery, they were shocked, for the brain tumor was much smaller than the previous tests had shown and with a minor surgery, the surgeons were able to remove the entire tumor, easily! They told Sister BJ, "Your son has received a miracle healing!" All praise belongs to God for His Ultimate Healing Power!!!

Financial Provision

Sister Sue from Owings Mills needed money for a bill. She did not have the money so she went to the Lord in prayer and asked in faith, believing that He would supply the funds she would need at the time the bill was due. Every day she thanked the Lord for providing the money and when the day came that the money was due, The Lord supplied the very amount that she needed, right in the nick of time! Sister Sue is praising the Lord for His faithfulness in providing exactly what she needed right on time! God hears and answers when His children pray! Hallelujah!

Closed Ear Opened

About a month ago, Sister Maureen of Timonium reported that her right ear went closed and she was not able to hear anything out of it. She and her husband prayed that the Lord would restore her hearing and reveal any doors she might have opened to the enemy that might have allowed this affliction. Before making a doctor's appointment to get a diagnosis, she received prayer at BCFC Healing School as well as from other prayer warriors. What was eventually revealed to her by the Holy Spirit was that she was not "hearing and obeying" Him about some behavior He was attempting to correct in her life. She was immediately led to acknowledge, confess, and repent of this behavior. A few days later, upon examination at the doctor's office, she was told that there was a 'stronghold' 'of wax in this ear and it needed to be physically removed. This process was completed over a few days, after which physical hearing returned to the right ear once again. But more importantly, spiritual hearing was restored as a response to repentance and obedience. As written in Isaiah 50:5 -- "The Lord God has opened my ear" - and He is a faithful and merciful God Who receives all the praise.

Miraculous Breakthrough

Sister Jenny was diagnosed with Crohn's Disease 14 years ago and has had it well controlled during that time, but was never technically in remission. Because of the length of time since her diagnosis, she needs to have a colonoscopy once per year. A few years ago, she was told that she had a stricture, or abnormal narrowing, in one part of her intestines that would someday require surgical intervention to correct. June 2019, Sister Jenny had her annual procedure and the results were nothing less than a miracle. Not only was she in remission for the first time since being diagnosed, but (in the doctor's words) she was healed of the stricture! What was once a narrow passageway with difficulty to scope through, is now wide open and HEALED according to the medical doctor! God had shown Sister Jenny during a previous procedure that she had a growth "in the perfect shape of a heart" according to the doctors and a picture that was taken of the growth. The doctor attempted a biopsy but it was too small to test. When she first heard of the heart-shaped growth, Sister Jenny knew that God was showing her, as he has shown her hearts for over 10 years in the oddest of places, that He is there, working in her and He loves and will heal her! As of this latest procedure, the doctor was able to determine the growth is benign and of no concern. Sister Jenny claims victory over disease in her body through Jesus and she is thrilled that God chose to do this for HER, even more than she is thrilled that she was healed at all. It's His love of her that means more than anything to her.
