Healed from cancer

Recently, Sister Bobbie from Marriottsville was driving home after a long day of work. She knew an acquaintance was in a hospital with cancer, but had very little time, and it was out of her way to get to the Hospital before visiting hours were over. The Lord inspired her to go anyway, even though she was very tired.

When sister Bobbie arrived, she asked other visitors to, 'Please let us have some alone time.' The patient was in the latter stages of cancer.

She then prayed for the patient and led her to Jesus with teaching and a prayer.

A few months later, Sister Bobbie heard the great news that the patient was completely healed of the cancer!! To God be the glory!!! Halleluiah!!!!

Healed from Covid

A brother from Baltimore was suffering from severe anxiety because for 2 months he was struggling with a few symptoms from Covid. He googled "miracles" and found BCFC on the website and attended a Wednesday evening service. He got anointed and prayed for during the healing service, and when service was over he asked the Pastor for special prayer because of his condition. So Pastor prayed for him, and after giving him some counsel, instructed him to come back and give the healing praise report! So the following Sunday the brother came back with his praise report of total and complete healing in his body from Covid Praise the Lord, whose healing has NO limits!!

Supernatural Remission

Sister Jenny of Woodbine, MD, was diagnosed with Crohn's Disease 15 years ago. The condition is well managed but because she has lived with the condition for over 10 years, she must undergo a colonoscopy, and sometimes an endoscopy, every year to ensure that things are under control and to catch any escalation of active disease early. She dreads having to prepare for this procedure as it requires drinking a lot of liquid that is quite a challenge due to its taste. She has struggled with this process every time.

This year, she asked the Lord to make the process easier for her to get through. The Lord gave her clear instructions of how to prepare and also for the first time, the doctor gave sister Jenny 2 days to prep so that she could take her time to fully clear her system before the procedure. Not only did the Lord make the process go extremely smooth, but she cleared out her system perfectly and the results showed that she is in complete and full remission throughout her entire gastrointestinal tract!! The doctor, who usually gives even good news with a bit of caution, had trouble holding back her joy as she was so elated at the results as if she were completely surprised! Due to Covid restrictions, sister Jenny's husband was not allowed in the recovery room to hear the doctor's results, but the doctor agreed to call him from her cell phone and allow him to listen while she delivered the news

to sister Jenny. Sister Jenny reports that she cried during the reporting of the results from sheer joy, knowing that God had healed her! Everyone in the procedure center was so kind and courteous. When she got out into the hallway to meet her husband, she began crying and ran to him and hugged him shouting, "Praise the Lord!" over and over again. They hugged and cried together, knowing God's healing hand had touched sister Jenny that day!!

2 Timothy 1:7

For God has not given us the spirit of fear, but of power, and of love, and of a sound mind.

If the Lord has done anything worthy of reporting, please let us know so we can put it on our next miracle report! We are overcomers by the blood of the Lamb and the word of our testimony!! Praise God and be safe and remain healthy in the name of JESUS!!
