

Cancer, Stomach, Kidney, Neck & Cholesterol, Open Door, Tree

October, 2016

Cancer

Sister Linda gives thanks and testifies of what God has brought her through. In September, 2011, she found her husband had fallen down the basement steps and was paralyzed; he died a week later. They had been married 36 years. She felt lost and wondered how she would get through it, but when she felt most alone she realized God was carrying her and she became much closer to Him. In September, 2012, she was diagnosed with Stage-1 breast cancer. She saw a surgeon and a lumpectomy was done and she had 32 radiation treatments. God was with her through that also. In September, 2013, she was diagnosed with Stage-3 lung cancer. The doctor removed half of one lung. Sister Linda reflected on how this could happen to her (even though she had smoked for 30 years). Then she thought, "How can I feel sorry for myself when Jesus suffered so much for me." That is when she decided that it was out of her control and whatever happened, God has it. Even though she slept in a recliner for a year, had several chemo treatments and lost all her hair, she was still loving life. August 22, 2016, tests show no signs of cancer; on September 27 the port for chemo treatments was removed! After all of this, she is closer to God than she has ever been! Thank You, Lord!

Tree

Sister Eleanor testifies that she prayed to the Lord for two trees around her house to die because they were a danger for her house and also some of her neighbors. She cursed these trees and she reports that the biggest one in her backyard is now completely dead! She praises the Lord for His powerful word and gives Him thanks and all the glory!

Neck & Cholesterol

Sister Ida of Baltimore was in an accident and injured her neck. Pastor prayed with her on October 5th and by the next day when she saw the doctor her neck was completely healed! She has had a problem with her cholesterol being high for many years and on October 17th her doctor gave her the results of her recent lab report that showed the good and bad cholesterol were both very good! She gives thanks to the Lord! Hallelujah!

GLORY TO GOD!

Kidney

Stomach

Brother Eric of Pennsylvania had been experiencing stomach problems for over six weeks. He was out of work and still feeling the loss of his mother and brother that had passed away in recent years. He had been seeking the Lord for healing and restoration, but it seemed not to come. He was thinking of going to a doctor, but figured that even when you go to the doctor that you still need to pray for healing! So He called BCFC and Pastor prayed with him to rebuke the sickness and prayed for his healing and restoration to his body and stomach and it began to manifest. He began to feel better right away and all the symptoms were gone! He gives all praise to the King! Thank You, Jesus!

Are you in need of a miracle?
Your miracle may just be a
prayer of agreement
and a phone call away!
Let's agree for
your breakthrough!

Sister Linda reports that her aunt was having a kidney problem and was told she needed to go on dialysis. Her aunt likes watching ministers on TV and had prayed the salvation prayer and believing God. She recently had her kidney checked again and was told she no longer needed dialysis. She told the doctor, "That's my Jesus!" Glory to God!

Open Door

Sister Julia of Baltimore reminds us that God cares about the small things as well as the large ones! When she and her husband returned home on Saturday, he tried to unlock the door and he tried everything he could think of but the door would not open. She asked him, "Did you pray?" She prayed and tried the door and it opened up immediately! It pays to try God first! Praise God!
